Edgemere Park Neighborhood Board of Trustees Meeting Minutes

May 28, 2026

The meeting was held at Shakespeare in the Park. Coleman Nash called the meeting to order at 6:03 pm.

Members present: *Coleman Nash, Henri Bailey, Jann Hook, Braton Danielson, Caroline Dennis, Britta Thrift, Nikki Kuhn*

A quorum was not present, so action on the minutes and treasurer's report for April was deferred.

The Eppilog is on track for mailing in June in time for the July 4 party. Coleman will follow up with Sam and Morgan Peregrin on that and social media.

On historic preservation, Drew Allensworth is still interested in assuming the chairmanship of the committee but has not yet committed. There is no new update on the 35th Street bridge project.

Nikki Kuhn reported on hospitality. The kickball tournament was reported to be a lot of fun but additional practice would be beneficial next year. Braton recommended a miscellaneous budget item for expenses such as this ($150 registration, centennial banner, etc.). The ornaments were approved via an online vote and Braton will set up a purchasing mechanism on the website, QR code, newsletter and at events. Linda Clement is working on historical marker plaques as well.

Upcoming events include a Thunder game in the park on June 10, although we are unsure about the projection quality. Nikki will try a test run ahead of time.

The green signs that have been replaced on the park lightposts may be able to be auctioned off. Nikki is going to check with George Waters, who originally paid for them, for his approval and offer one to his family.

The July 4 party will proceed as usual, although we may include a time capsule and have field games and other family activities. A sizeable rat snake (RIP) was sighted in the park recently.

Street sign toppers were discussed; preliminary estimates would be up to $3500 for toppers throughout the neighborhood.

We are still lacking a security corporation chair. Conversations on security will continue, although we would like to keep the corporation active for now. A certificate with the

Secretary of State and a tax return would need to be filed. Interested parties may be called upon for a meeting in July.

The perimeter signs may be able to be auctioned off as well but it was decided to leave them in place until a replacement plan is developed.

On speed abatement, a majority of neighbors favor the driver feedback lights rather than speed cushions. Work with the developer (Matthew McLoughlin) of the 30th Street apartments is in progress and we will use that as a test run and then select additional locations. We will also request no parking any time along portions of 30th Street. The east part of 30th Street will be left as-is (no parking M-F, 7-9 am). Jann and Coleman are working with the city. The cost is $3400 for each sign, split between the neighorhood/developer, possibly Jefferson Park, and the city. Mr. McLoughlin is also developing the lot at the northwest corner of 30th and Walker and might be willing to pay for all the signs. We may also request a speed limit reduction (from 30 to 25 mph) along 30th Street.

A neighbor reported a light post out at 233 NW 35th Street and we will report that to Linda Clement. Henri is going to follow up with the Golden family about the light that is still out at the vacant house in the 200 block of Eubanks.

The next meeting will be June 24 at 6 pm, at the theatre (WEDNESDAY so as to schedule around “The Tempest”). The non-meeting was adjourned at 7:14 pm.
